Since 2000	Editor in 2nd of the *Cahiers Chronos*, Brill (the world leading series in tense/aspect/modality/ evidentiality studies)
	Reviewer for multiple journals (*Language, Linguistics, Lingvisticae Investigationes, Natural Language and Linguistic Theory, Cognitive Linguistics, Journal of French Language Studies, Italian Journal of Linguistics, Lingua, Canadian Journal of Linguistics*…)
	Member of scientific committees for numerous international and national conferences/colloquia, recurrent or not : CSSP, Chronos, ALS…

Teaching	
Since 2013	**Lecturer at U. Paris Cité** : «Non-Indo-European Linguistics ») », M1/M2. 40h/y; « Field Methods », M1/M2, 20h/y.
2015-2018	**Lecturer at the** (M1/2, « Semantics of tense and aspect » ; 12h/y.
2014-2015	**Lecturer at U. Paris 4** (« Semantics of tense and aspect – counting and measuring across languages ») (M1), 20h/an.
2003-2006	**Lecturer at U. Paris 8** (introduction to semantics, semantics, L1-L3; 40h/y)

Field Work	
2013-2018	Minjilang community, Croker Isld., N.T., Australia; TAM system and morphology of iwaidja (with R. Mailhammer, U. Western Sydney); 3 weeks
2016-2017	Le Faouet (56), France : TAM system of a substandard variety of Breton ; 1,5 month
2016-2017	Anguru community, Groote Eylandt, N.T., Australia ; Anindhilyakwa tense/aspect/modality system, morphology & syntax ; experimental elicitation (with J. Bednall, ANU) ; 3 months
2013-2014	Warruwi and Minjilang communities (South Goulburn/Croker Isld.), N.T., Australia ; TAM system and morphology of iwaidja (with R. Mailhammer, U. Western Sydney) ; 2,5 months

Mobility	
Nov.-Dec. 2014	Visiting Researcher at U. Melbourne ; ECHIDNA project (collaborative international scheme).
June-July 2013	Visiting Researcher at U. Melbourne (3 weeks) – Preparation of collaborative field trip with R. Singer (U. Melbourne) and R. Mailhammer (U.W.S).

2010- 2011	Honorary Research Visitor at U. Western Australia (10 months) – TAMEAL project – collaborative work on the verbal systems of Pilbara languages (A. Dench, M.-.E. Ritz), and evidentiality in mparntwe arrernte (J. Henderson).
Oct.-Dec. 2008	Research Visitor at U.W.A. (8 weeks), within DRI CNRS contract #211339 *Formal treatment of aspectual, temporal and modal phenomena in two aboriginal languages of the North West of Australia: Martuthunira and Panyjima*. Collaborative work with A. Dench & M.-E. Ritz.

Dissemination	
2012	Master class for the *Australian Linguistics Institute* – Tense-Aspect-Modality in Australian languages (with R. Mailhammer, U.W.S.)
2002-2006	Member of the *Atelier Fahrenheit 451* (research & performance group for speech arts) at the *Oral Literature Center* (*CLiO*), Vendôme (France)
Depuis 2001	Frequent talks/performances related to oral narration and the Aboriginal and Celtic oral traditions for the general public, in museums (Musée du Quai Branly (Paris), Cité des Sciences (Paris), Musée Albert Kahn (Boulogne), Musée Saint Roch Issoudun), Musée archéologique de Grenoble (Grenoble), Musée du Dauphinois Grenoble)…), libraries, cultural centers, festivals…

Scientific management	
Since 2021	Member of the editorial board of the *Journal of Linguistic Diversity* (Brill)
Since 2020	Member of the administrative council of the Linguistics Department at U. Pairs
2004-2019	Member of the laboratory council, LLF, UMR 7110
Since 2008	Advisory Editor - *Oxford Studies on Time in Language and Thought* (General Editors: Kasia M. Jaszczolt et Louis de Saussure), Oxford University Press
Since 2001	Co-editor (with Carl Vetters) of the *Cahiers Chronos* collection (Brill)

Research supervision – since 2013	
PhD Theses	Marie Legentil, *Système verbal et description d'événement en gurr-goni* (alloc. ED622)
	David Felipe Guerrero-Beltran, *The TAME verbal system of a Maningrida Australian language: formal and experimental approaches.* (allocation "Contrats doctoraux internationaux Idex" 2020,U. Paris ; cotutelle with U Melbourne / Brett Baker)
	Beatrice Pahontu (U. Paris/U. Bucarest) – *Les périphrases progressives dans les langues romanes* (cotutelle avec U. Bucarest / with D. Dobre)
	James Bednall (ANU/U. Paris-Diderot) – *Temporal, aspectual and modal expression in Anindilyakwa, a non-Pama-Nyungan language of Northern Australia.* Co-tutelle ANU/U. Paris-Diderot, with J. Simpson. (Thesis defended on 13/02/2020, *cum magna laude*)

Research interests
A. Lexicon, morphology, syntax, semantics and pragmatics of Australian languages (Iwaidja, Anindhilyakwa, Murrinh-Patha, Jaminjung, Mawng, Dalabon, Nyamal, Mparntwe Arrernte, Panyjima, Martuthunira)
A.1 **Descriptive, experimental and formal approaches to tense, aspect, modality and evidentiality (TAME) in Australian languages,** especially Iwaidja (with R. Mailhammer, U.Western Sydney), Anindhilyakwa (with J. Bednall, A.N.U.), Murrinh-patha (with R. Nordlinger, U. Melbourne), Jaminjung (with E. Schultze-Berndt, U. Manchester) and Mparntwe Arrernte (with D. Moore, U.WA.). Experimental elicitation of event descriptions.
A.2 **Typological study of TAME systems of Australian languages** (especially complex, composite markings combining aspectuo-temporal and modal exponents)
A.3 **Associated motion and associated posture** (in particular non-Pama-Nyungan languages) ; TUL project with Marine Vuillermet (U. Lyon II, DDL) on the typology of associated motion/posture ; collaborative work with R. Mailhammer (UWS) and J. Bednall (ANU) on associated motion/posture in Iwaidjan and Gunwinyguan languages
B. Fieldwork methodology for the study of tense/aspect/modality/evidentiality in underdescribed and endangered languages
B.1 **Experimental fieldwork methods for the description of TAME categories –** Australian languages and sub-standard varieties of Breton ; constitution of elicitation-oriented visual databases ; elaboration of mixed fieldwork methods for the elicitation of event descriptions on the basis of visual stimuli
B.2 **Developing field questionnaires for the tense/aspect and tense-aspect/modality**
C. **Diachrony and typology of inflectional TAME marking :** lexification, grammaticalization and conventionalization of TAME markers / uses of TAME markers (Romance, Germanic, Slavic and Australian languages)
C.1 **Quantitative study of tense, aspect and modality in Old and Middle French** (11th -15th centuries) – synthetic tenses (passé simple) and periphrastic/analytic tenses (passé composé, plus-que-parfait, passé antérieur and verbal periphrases) ; computational diachrony of French (with B. Crabbé, U. Paris-Diderot and M. Troberg, U. Ottawa)
C.2 **Diachrony and comparison of TAME marking for structures with modal meanings** - Romance, Germanic, Slavic and (especially non-Pama-Nyungan) Australian languages ; morpho-syntax and semantics of modal constructions (hypothetical, epistemic, deontic, predictive) with one or mor inflectional TAME marking (cf. Romance imperfects/futures/conditions, irrealis+potential/past+present in non-Pama-Nyungan languages).
C. 3 **Inflectional lexical classes for French** : morphology and semantics of 2nd group verbs in French ; diachronic and synchronic quantitative approach.
D. Formal semantics and pragmatics
D.1 **Tense, aspect, modality and evidentiality**: interfaces (semantics/pragmatics, morphology/semantics).
D.2 **Semantics of scalarity, quantification, and plurality**: verbal derivation in Romance and Australian languages ; semantics of reduplication and antipassives in Australian languages.
D.3 **Discourse semantics and pragmatics :** a formal study of oral narratives
